Things to watch:

Does any fascia material interfere with mounting the door?

3 sided overlap or 4 sided overlap?

Did you remove the existing tracks?

Is there a damper handle?

Any other obstructions?

Notes:

Measuring Guide

for Direct Vent or Recirculating Fireplaces

A | Height from top of opening to top of fireplace

A | Top Louver Height

B | Bottom Louver Height

C | Opening Height

D | Overall Width

E | Opening Width

F | Overall Height

B | Height from bottom of opening to bottom of fireplace

Notes:

$$* A + B + C = D$$

*Brookfield ZC Deluxe & DV Deluxe with Louvers must have minimum of 5" louver height
